Source: Nomis/ABI 2007

- West Sussex has a higher proportion of small businesses than Great Britain but a smaller proportion than for the South East. The proportion of small businesses is the highest in Horsham with 88.5% of businesses employing 10 people or less.
- The proportion of large businesses is the highest in Crawley where nearly 4% of businesses have 100 or more employees. This is significantly higher than nationally or regionally.
