Talk with us – public question time

92. The Chairman invited questions from members of the public. Questions were asked to which responses were given, including those set out below:

- Mr and Mrs Gaylor from Hammerpot reported that in October 2015 Highways England (HE) had funded the excavation of the ditch to the south of the A27 and the water does now appear to get away more quickly. HE are now looking at designs for greater capacity to drain under the A27.
- Mr Butler from Yapton raised concern about speeding on Church Road and Church Lane in Yapton. It was confirmed that Mrs Joan Phillips, as the local

County Councillor for the area, was discussing options with officers at West Sussex County Council.

- Councillor Mr Michael Pickthall welcomed the opening of the new Felpham Relief Road but raised concern about the increase in traffic along the A259 especially around Comet Corner. It was suggested that Mr Pickthall discuss this outside the meeting with his local County Councillor as most of that area was outside of the JDAC and covered by the Joint Western Arun Area Committee (JWAAC).

Community Policing Update

93. The Chairman welcomed Inspector Marc Clothier who provided an update on current issues in the JDAC area. A number of issues were discussed including those set out below:

- Inspector Clothier confirmed that there was no evidence of a pattern in regard to crime increases and reassured Members that it is reviewed on a daily basis and the figures are still low and Arun is a safe place to live. He confirmed that resources are deployed to deal with specific areas on concern.
- The consultation with PCSOs about their future role was underway. This will see a reduction in the overall number of PCSOs as well as upskilling the role. The total numbers would not be known until the consultation was concluded.
- A letter had been sent to all Parish Councils with an update on the Policing Plan.
- It was hoped that an update on Community Wardens would be provided for the next meeting.

Area Action Plan

94. The Chairman referred Members to the Area Action Plan previously circulated. It was noted that the main update was in relation to Broadband and that the previously circulated paper included details of a subsidised satellite connection scheme for residents who can not access broadband at a minimum speed. Mr Dingemans referred to a recent press article about BT being reluctant to let other service providers access boxes. It was suggested Mr Dingemans raise this concern directly with BT or via his MP.

95. In relation to flooding and drainage, Members referred to the seminar that had taken place immediately prior to JDAC. They thanked the representatives from West Sussex County Council, Arun District Council, the Environment Agency and Southern Water for attending the seminar. It was agreed that:

- JDAC should receive regular updates from all agencies on the progress of actions on the Lidsey Surface Water Management Plan and other plans such as the Aldingbourne Rife study.
- JDAC should encourage all agencies to prepare and agree a joint statement on relevant matters.

96. The Chairman raised the issue of Section 106 developer funding and how the District Council allocate such funding. It was agreed that a paper outlining the process would be provided by Karl Roberts for a future meeting.

97. The Committee noted the Area Action Plan.

Traffic Regulation Order Update

98. The Committee consider an information report by the Director of Highways and Transport and Head of Highways Operations, West Sussex County Council (copy appended to the signed minutes). Ben Whiffin introduced the report and explained the new process for community led TROs as detailed in the report. Mr Whiffin also referred the Committee to the progress on current live TROs and the outcome of assessments from the 2014 'Appendix B' requests. It was also explained that although JDAC would only have 1 TRO per year there was the opportunity for another 14 of the highest scoring TROs from across West Sussex to progress.

99. Clarification was sought about who could apply for a TRO. Mr Whiffin confirmed that any member of the public or indeed a Parish Council could apply but it was essential that they seek the support of the local County Councillor as well as evidence of wider community support before submitting a request.

100. The Committee noted the report.

101. The Committee considered a report by the Director of Law, Assurance and Strategy, West Sussex County Council (copy appended to the signed minutes), which sought a decision from the County Council Members of the Committee on the applications received under the Community Initiative Funding (CIF) scheme. 106. The Chairman invited questions from Town and Parish representatives on the Committee. The following issues were discussed:

- Councillor Mr Humphris raised concern about the growing number of HGVs using the village roads in Clymping, Ford and Walberton. It was asked if any survey or monitoring could be undertaken to ensure the HGVs are complying with routing agreements.
