**Adult Social Care and Health**

<b>All</b>	<b>1</b>	<b>Care and Support at Home</b>	<b>Juliette Garrett</b> (033022 23748)
------------	----------	---------------------------------	-------------------------------------------

The tender for Care and Support at Home services commenced following an executive decision in July 2014, which can be viewed in the report at <http://www2.westsussex.gov.uk/ds/mis/060814asch3.pdf>. The aim was to establish an integrated framework across health and social care with the intention of:

- assuring supply across the county;
- supporting sustainability in the market and in the workforce;
- enhancing quality and focus on outcomes;
- ensuring value for money; and
- developing arrangements which are manageable to run and consistent.

The successful organisations that will provide home care services on behalf of the County Council have now been identified following the completion of the tender exercise. Currently, the County Council purchases services from around 70 different home care providers. The changes mean contracting with 27 core providers on the new arrangements, with whom the County Council will now be focusing on building strong relationships. For a number of current providers this means that they will no longer receive referrals directly from the County Council but can still contract directly with people holding direct payments. The commissioning team will meet these providers to discuss this outcome for them and options for their organisation.

Around 2,000 West Sussex residents receive home care which is purchased on their behalf by the County Council. Due to the changes in the providers on the new arrangements, around half of those residents are currently supported by providers who will not be delivering on the new arrangements, and hence may need to transition to a new provider. Everyone affected by these changes has been kept up-to-date with the process and will be contacted individually about how the changes will affect them. These discussions will include looking at options such as accessing a direct payment which some customers may choose in order to retain their current provider, or indeed to change the care and support they receive. The new arrangements will now be focusing on ensuring consistent, sustainable and quality services to residents who want the County Council to purchase for them under the new arrangements, support to
