407,149 EGGS FOR WOUNDED SOLDIERS.

CHICHESTER DEPOT'S THREE YEARS RECORD.

The Chichester Egg Depot entered upon its fourth year of work this month, having been opened on January 1915.

On that day the number of eggs collected was 336. Now the weekly is never less than 1,500.

Since the Depot opened 407,149 eggs have been collected; forty-two Depots work in connexion with Chichester Depot, and there is a magnificent band of over one hundred collectors, most of whom have worked since the beginning.

To all of them and to the Press Controller takes this opportunity with sincerest thanks for their help and hard work, and looks forward with absolute confidence to the continuance of their patriotic assistance until the end of the war.

Last week’s figures are appended.
