

## **Countryside Access Forum for West Sussex Agenda Item 7b**

**23<sup>rd</sup> January 2008**

### **STRATEGIC DEVELOPMENTS – WEST & NORTH WEST OF CRAWLEY**

Following the public consultation in November 07, Horsham District Council (HDC) are going through the responses at present. I am told the majority of them are supportive of the preferred site option, so Council will go ahead and work up the submission document following further technical work on transport and how to deal with the landfill site.

It is planned the submission document will go before HDC for approval at meeting on 27<sup>th</sup> March and to Crawley Borough Council (CBC) at a meeting on 9<sup>th</sup> April. Following approval, the document will be published in early May with a period for representations (not consultation). Any representations made will go before the Inspector at a public inquiry, which will be in either December 2008 or January 2009.
